

Resume

Profile

Hey, I'm Felix. I strive to create great software and develop reliable computer systems. I try hard to develop my skills further and love to collaborate with my fellow people. I dislike legacy and prefer to work on the shiny new thing – but I acknowledge that legacy and the hot stuff is the same thing a few years apart. I like to meet new people and their mindsets. I like to express my opinion honestly and to engage in discussions with my fellow colleagues and friends.

Skills

Web Development

I develop web applications using Ruby on Rails and Express using front-end frameworks such as AngularJS and Ember.js .

Systems Engineering

I create reliable and fault-tolerant software systems leveraging idioms such as Infrastructure as Code and state-of-the-art Service Discovery and Configuration.

Working Experience

Zweitag
Software Engineer

since 04/2016

Zweitag
Junior Software Engineer

03/2015 – 03/2016

Developed Ruby on Rails web applications, built and deployed robust software systems. Learned much about the practical side of Software Engineering.

University of Münster
Department of Information Systems
Student Assistant

05/2014 – 04/2015

Assisted the faculty staff with literature search, classification and summarization. Developed a mobile Android application for the visualization of Business Process Models (BPMN). Continued developing the app as a participant of a project seminar on a similar topic.

Technologies

- *Working Knowledge:* Ruby on Rails Ruby Go Node.js Git Express Linux server administration
 - *Basic Knowledge:* AngularJS Ember.js Java PHP SQL Android app development iOS and OS X app development
-

Academic Education

Information Systems (BSc)
Westfälische Wilhelms-Universität Münster
Final Grade: Ø 1.7

10/2012 – 03/2016

Bachelor Thesis: Implementing Highly Available And Robust Microservices Using An Logistics Example

Focus: Service Management and Service Engineering, Development of Mobile Applications for Business Process Management

Study Area: Algebra, Descriptive & Inferential Statistics, Data Management, Software Engineering, Data Structures & Algorithms, Foundations of Business Administration, Accounting, Business Process Management, Project Management

Abitur
Friedrich-List-Gymnasium Reutlingen
Final Grade: Ø 2.1

10/2005 – 04/2011

Other Qualifications
